

L'ARBRE

SWITZERLAND

AN EXPRESSION OF TRUE STYLE

We live in a hectic world. Meetings and chance encounters are not fully appreciated, tending to quickly disappear from memory.

To ensure a valuable contact is not forgotten, L'ARBRE SWITZERLAND has developed the most exclusive private card in the world.

It allows lovers of true luxury to show appreciation appropriately, enabling access to private circles.

L'ÉLU - THE CHOSEN

One can choose between four different woods, each with its own characteristic grain pattern: the reddish wood of Swiss plum trees, the dark brown wood of the walnut tree, the delicate wood with a rose hue of the checker tree, and the light shimmering wood of the birdseye maple.

A yellow, rose or a white gold plated core lets the letters sparkle and shine perfectly, and gives each private card the status of a work of art.

Wood from plum trees, walnuts, checker trees or birdseye maples are combined with a gold plated core.

The combination of rare ebony wood with a solid gold core.

LES ROYALES

The edition "Les Royales", combines rare ebony wood with a massive gold core in 18 carat, or upon request in 22 carat gold.

Ebony is one of the most valuable type of woods on earth and is characterized by dark brown, almost black colouring, and a pure silky sheen.

To leave a perfect impression for eternity, it is also possible to adorn each private card with gemstones and individual engravings on the backside of the corner.

Using an open-pore finish formulated on the basis of a special natural oil, the private card is available in a silky sheen or matt finish.
